### BOARD OF APPEALS

SECTION 1. Creation and Membership. A Board of Appeals is hereby authorized to be established. The word "Board" when used in this section shall be construed to mean the Board of Appeals. The said Board shall consist of seven (7) members appointed by the President and with the consent of the Board of Trustees. The members of the first Board shall serve respectively for the following terms (or until their respective successors are appointed and qualified): One for one year, one for two years, one for three years, one for four years, one for five years, one for six years, and one for seven years, and five years each for those following the first appointment. One of the members of said Board shall be designated by the President, with the consent of the Board of Trustees, as Chairman of said Board, and shall hold his said office as Chairman until his successor is appointed. Such Chairman, or in his absence, the Acting Chairman, may administer oaths and compel the attendance of witnesses. The President shall have the power to remove any member of said Board for cause and after a public hearing. Vacancies upon said Board shall be filled for the unexpired term of the member whose place has become vacant, in the manner herein provided for the appointment of such member.

SECTION 2. Meetings. All meetings of the Board of Appeals shall be held at the call of the Chairman and at such times as such Board may determine. All hearings conducted by said Board shall be open to the public. The Board shall keep minutes of its proceedings showing the vote of each member upon each question, or if absent or falling to vote, indicating that fact, and shall also keep records of its hearings and other official actions. Findings of fact shall be included in the minutes of each case of a requested variation, and the reasons for recommending or denying such variation shall be specified. Every rule or regulation, every amendment, or repeal thereof, and every order, requirement, decision or determination of the Board shall be filed immediately in the office of the Board and shall be a public record. The Board shall adopt its own rules of procedure not in conflict with this Ordinance or with the Illinois Statutes in such case made and provided, and may select or appoint such officers as it deems necessary.

SECTION 3. Appeal. An Appeal may be taken to the Board of Appeals by any person, firm, or corporation, or by any officer, department, Board or Bureau affected by a decision of the Building Inspector relative to this Ordinance. Such appeal shall as shall be prescribed by the Board of Appeals by general rule, be taken within such time by filing with the Village Inspector and with the Board of Appeals a notice of appeal, specifying the grounds thereof. The Village Inspector shall forthwith transmit to the Board all of the papers constituting the record upon which the action appealed from was taken.

An Appeal shall stay all proceedings in furtherance of the action appealed from, unless the Village Inspector certifies to the Board of Appeals after the notice of appeal has been filed with him by that by reason of facts stated in the certificate, a stay would, in his opinion, cause imminent peril to life or property, in which case the proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Board of Appeals or by a court of record on application, on notice to the Village Inspector, and on due cause shown.

The Board shall select a reasonable time and place of the hearing of the appeal and give due notice thereof to the parties and shall render a decision on the appeal without unreasonable delay. Any person may appear and testify at the hearing, either in person or by duly authorized agent or attorney.

SECTION 4. Fee. A fee of twenty-five dollars (\$25.00) shall be paid at the time the notice of appeal is filed.

SECTION 5. Decision. The Board may reverse or affirm wholly or partly or may modify or amend the order, requirement, decision or determination appealed from to the extent and in the manner that the Board may decide to be fitting and proper in the premises.

SECTION 6. Variations. When a property owner shows that a strict application of the terms of this Ordinance relating to the use, construction, or alteration of buildings or structures, or to the use of land, imposes upon him practical difficulties or particular hardship, then the Board may make such variations of the strict application of the terms of this Ordinance as are in harmony with its general purpose and intent when the Board is satisfied, under the evidence heard before it, that a granting of such variation will not merely serve as a convenience to the applicant, but is necessary to alleviate some demonstrable hardship or difficulty so great as to warrant a variation in the following instances:

To permit the extension of a district where the boundary line of a district divides a lot in single ownership as shown on record.

To permit the reconstruction of a nonconforming building which has been destroyed or damaged to an extent of more than fifty percent (50%) of its value, by fire, or act of God, or the public enemy, where the Board shall find some compelling public necessity requiring a continuation of the nonconforming use, but in no case shall such a permit be issued if its primary function is to continue a monopoly.

To permit the reconstruction and use of a building or the use of premises in any location for a public service corporation for public utility purposes with the Board deems reasonably necessary for the public convenience or welfare.

To make a variance where, by reason of an exceptional situation, surroundings, or condition of a specific piece of property, or by reason of exceptional narrowness, shallowness or shape of a specific piece of property of record, or by reason of exceptional topographical conditions the strict application of any provision of this Ordinance would result in peculiar and exceptional practical difficulties or particular hardship upon the owner of such property and amount to a practical confiscation of property, as distinguished from a mere inconvenience to such owner, provided such relief can be granted without substantial detriment to the public good and without substantially impairing the general purpose and intent of the comprehensive plan as established by the regulations and provisions contained in this Ordinance.

To interpret the provisions of this Ordinance where the street layout actually on the ground varies from the street layout as shown on the District Map fixing the several districts.

To extend the period within which a nonconforming commercial or industrial use is to be removed from a dwelling district, when the owner or owners can furnish substantial proof

that the building was so extensively remodeled, reconstructed or structurally altered after the original construction that it practically resulted in a new building, but such extension of the period shall not exceed forty (40) years from the date of such remodeling, reconstruction or structural alteration.

To permit a lot or tract to be subdivided and used by more than one main building even though the width of the lot and other similar requirements may not be fully complied with, but only when the distances between the proposed use and other existing structures or lot lines conform to the minimum requirements of the district in which the lot is located and when adequate vehicular access can be provided.

SECTION 7. Vote Required. In considering all appeals and all proposed variations to this Ordinance the Board shall, before making any variation from the Ordinance in a specific case, first determine that the proposed variation will not impair an adequate supply of light and air to adjacent property, or unreasonably increase the congestion in public streets, or increase the danger or fire or endanger the public safety, or unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the Village. The concurring vote of four (4) members of the Board shall be necessary to reverse any order, requirements, decision or determination of the Village Inspector, or to decide in favor of the applicant any matter upon which it is authorized by this Ordinance to render a decision.

SECTION 8. Notice. The Board shall make no recommendation except in a specific case and after a public hearing conducted by the Board. A notice of the time and place of such public hearing shall be published in a paper of general circulation in the Village at least fifteen (15) days previous to the hearing. Such notice shall contain the address or location of the property for which the variation or other ruling by the Board is sought, as well as a brief description of the nature of the appeal.
